Appln. No.: 10/733,820

Amendment dated October 24, 2006 Reply to Office Action of August 24, 2006

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1-7. (Canceled)

- 8. (Currently amended) An apparatus configured for receiving inductive energy, comprising:
 - a memory for storing computer readable data relevant to receiving the inductive energy;
 - a processor unit for processing the computer readable data;
- a coil <u>configured to alternate between an energized state and a de-energized state at regular intervals in a polling mode and configured for receiving the inductive energy and for receiving an inductive data communication;</u>
- a power supply operatively coupled to the processor unit and the coil; the power supply configured to output a direct current powered by the inductive energy and relevant to the inductive data communication;
 - a battery charger for supplying energy to a separate battery pack; and
- a connector for operatively receiving a portion of the battery pack for logical communications with the processor unit.
- 9. (Original) The apparatus in accordance with claim 8, in which the processor unit is configured to provide authentication data for inductive energy reception.
- 10. (Original) The apparatus in accordance with claim 8, further comprising a communications device operatively coupled to the coil.
- 11. (Original) The apparatus in accordance with claim 10, in which the communications device is configured to receive the computer readable data and transmit the data to the coil.
